

GSTAAD AND SURROUNDS

How the Saanenland region came into existence is a delightful story indeed. Legend has it that when God created the Saanenland, he pressed his hand firmly against the earth. The print of his palm is where the villages of Saanenmöser, Schönried, Saanen and Gstaad stand today, the five fingers formed the five valleys of Turbach, Lauenen, Gsteig, Chalberhöni and Abländschen. The exceptionally beautiful landscape of Gstaad and the Saanenland offer something to suit all tastes. The Saanenland could best be compared to invariably good-humored people with nothing rough, menacing, narrow-minded about them. A landscape that looks like right out of a fairy tale book.

LE GRAND BELLEVUE

Le Grand Bellevue is set amid 18,000 sqm of lovely landscaped grounds right at the entrance of the idyllic village of Gstaad. 57 bright and spacious guest rooms and suites - located in the main building and the adjoining chalets - have all the amenities and comforts you would expect from a world-class hotel.

ATTRACTIVE SUPPORTING PROGRAMS

A conference just like any other - this is precisely what a conference at the Grand Bellevue is not.

Creative supporting programs allow delegates to relax between conference sessions or meetings and find new inspiration: loosening up tense muscles under the guidance of one of our personal trainers during a conference recess, or a Nordic walking workout followed by an “al fresco” lunch in the sunshine are just two of many options available.

If you are looking for that perfect venue for that perfect event, our fine restaurants are just the right place! For your entertainment we can arrange for a magician, live band or solo performer.

What about a fun-filled evening in a mountain hut with our hotel’s catering services?

Or would you like to combine your event with team building activities, or try your hand at cheese-making?

We will do whatever it takes to make your event spectacular! If you opt for a full team building day - a day of mountain biking, river rafting on the Saane, skiing on the slopes, or - at long last - a chance to carve telemark turns in pristine powder - we will be delighted to develop a bespoke solution for you.
