

Welcome to the meeting of the future!

GLO Meets Kluuvi is a new meeting place where design and meeting technology are brought to a whole new level. The facilities were opened in the summer of 2013 and are located on the second floor of GLO Hotel Kluuvi in the center of Helsinki. The stylish meeting facilities have been designed with the meeting standards of the future in mind.

## Breaks and catering set the pace for meetings

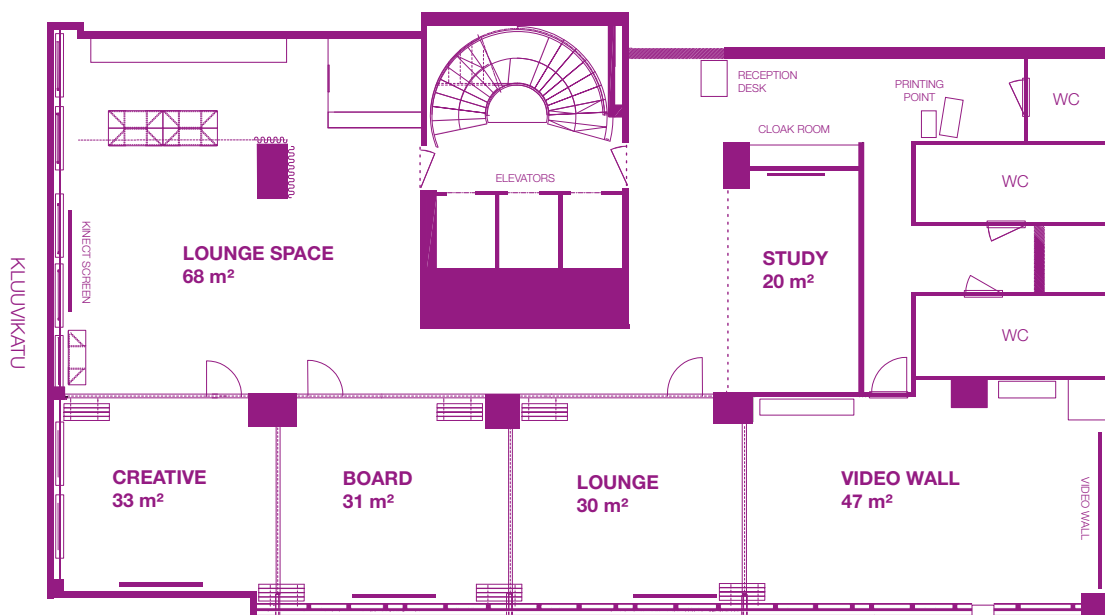

Catering must flow inconspicuously. Meeting day is a day for a healthy, steady flow of nourishment that is easy to digest, bringing you pleasure still keeping you from feeling hungry. We favor natural products, healthy fibers and soft fats. We strive to minimize the use of additives and processed raw-materials.

## Meeting Packages

All of our meeting packages are all-inclusive. The price includes the meeting facility and catering available at the food market. One price, no surprises. In addition to breakfast, lunch and afternoon coffee the food market buffet offers refreshments, coffee, fruits and smoothies all day long.

### Meeting room features

- » video screen
- » flip chart
- » microphone (1 x hand-held, 2 x head set)
- » notepads and pens
- » internet connection (WLAN)
- » flat screens
